
Our Focus 2022-2025

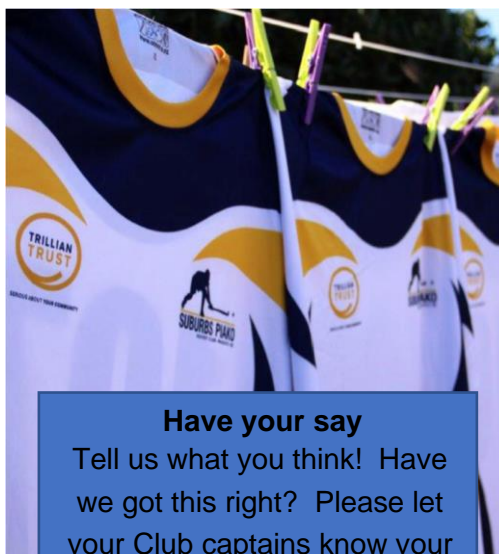

- Providing social and competitive hockey for players of all abilities, backgrounds and ages.
- Building the club from the base up; from the wider hockey membership rather than an overly heavy focus on premier teams.
- Ensuring we are a friendly and social club where people know each other and enjoy their membership.
- Supporting the aspiration of all members to participate to the best of their ability.
- Nurturing talent and ambition of the individual to reach their full potential whether through playing, coaching or umpiring.

We want to set ourselves some goals by end 2025

- Improve support and resources available to coaches
- To increase the number of teams to 12 (7 men and 5 women)
- To increase the number of women's teams from present 3 to 5
- To aim for a premier women's team
- Improve interconnection between the men's and women's divisions
- Increase the number of volunteers regularly involved in the management of the club via committee, umpiring, coaching, social committee, financial planning
- Improve the overall success of teams in competitions
- To seek Club sponsor(s)

How will we achieve our goals?

- Work on getting better training times - this may mean training outside of Hamilton
- Training together as a club - so we get better connections across the teams and divisions
- Implement processes for developing and supporting coaches
- Establish a social sub-committee
- Improve our management processes - look at our policies & work better as a committee
- Investigate membership fee/loyalty initiatives

Have your say

Tell us what you think! Have we got this right? Please let your Club captains know your thoughts or write to us at admin@suburbspiakohockey.org.nz by Aug 17th 2022.

Strategic Plan 2022 to 2025

Consultation Leaflet with Club Members

SUBURBS PIAKO
HOCKEY CLUB • WAIKATO • NZ

Why do we need a Strategic Plan?

Suburbs Piako HC has been around for 70 years and we want to be around for the next 70. Having a Strategic Plan gives your committee a clear direction on what you want the Club to focus on. It's important that, as a club, we are clear on where we're heading and have a plan for how we're going to get there.

We need to make sure we're giving you - our members - what you want.

The Strategic Plan will drive the work of the Committee ensuring we put effort in where it's most needed.

A Strategic Plan is a vital supporting document when applying for funding.

Our Vision

Suburbs Piako Hockey Club to be the club of choice in Hamilton, providing social and competitive hockey opportunities for all, in a friendly, safe and inclusive environment that enhances the health and wellbeing of our members

What you told us 😊

Through the 2021 Member Survey you told us that,

You play hockey for social and competitive reasons

A social club environment is important to you

Half of you are looking to improve your skills

Most of you are happy with the coaching received

Most are happy or very happy with the club and team culture.

What you want fixed 😊

Two key issues were raised through the Member Survey

Training times are too late

The standard of umpiring (whilst it is not directly a club issue, it has a big impact on the game).

There were mixed views on fees. Most responses suggested they were happy with the fees but a few comments suggested otherwise.
